NOTES:

- Drawer width should not exceed slide length.
- For optimal performance, make drawer 1-1/16" [27.0 mm] less than cabinet opening.
- Slides may not function properly if side space is less than .50" [12.7 mm].

* A lateral file drawer is wider than it is deep.
♦ Load rating based on 18" slides mounted in a 16" wide drawer cycled 50,000 times.
